

INTERNET RECORDS PARTNERS WITH AIRPLAY DIRECT

Oceanside, NY (August 10, 2006) – Internet Records Inc. announced August 10th that it has selected Airplay Direct as the primary system of choice in the design of its delivery to radio in the promotion of its artists. A label spokesperson stated, "the company offers an efficient and cost effective way to deliver broadcast-quality material to radio."

The label intends to promote all of its artists aggressively to radio in the coming months. Both Andrejack and Lifeline have received critical acclaim in the press (notably inside connection magazine, and aural fix), and Internet websites. Andrejack have recently appeared on a Hofstra Television Telethon and Inside Connection concert series televised event.

"Airplay direct delivers a state of the art system for radio stations to hear our material", quotes Tyrone Williamson CEO and founder of Internet Records Inc. and "We look forward to working with them, and seeing them expand their services to the Industry. No one else is doing something like this, and I'm proud to be part of it".

Internet Records will establish a healthy presence at the AirPlay Direct site. Internet Records artists will benefit greatly from this alliance, as radio stations will receive most of our music this way. AirPlay Direct's system will allow us to grow our distribution footprint, increase our airplay / visibility, and deliver our music quickly, efficiently and cost effectively.

About Internet Records
